

# Video Editor Intern

Full-Time | Summer 2026 | 3-6 Months

## About CTIER

The Centre for Technology, Innovation, and Economic Research (CTIER) was established in 2015 to raise the level of debate and awareness among policymakers, industry, and researchers in India about the essential role of technical capability in economic development, and how it is best fostered. CTIER aims to inform policymaking based on high-quality empirical economic research and impact higher education in India. Since its inception, CTIER has become the foremost think tank for innovation in India.

## About the Role

CTIER is looking for a creative and motivated video editor intern to support the production of multimedia content for our research communications, outreach, and digital presence. As India's leading innovation think tank, CTIER regularly produces videos featuring expert interviews, event recordings, research explainers, and policy briefs.

This is a hands-on opportunity to work on content that reaches policymakers, academics, and industry leaders across India. If you have a sharp eye for storytelling, a knack for clean edits, and take pride in polished, professional output, this role is for you.

## Key Responsibilities

- Edit raw footage from seminars, panel discussions, interviews, and events into polished, publication-ready videos
- Create short-form video content for CTIER's social media channels
- Work with researchers to translate complex policy content into engaging visual narratives
- Maintain an organised archive of raw footage, project files, and final exports
- Assist in the production of video summaries and explainers for CTIER's flagship publications and research reports
- Assist in data visualisation of CTIER's innovation data, creating charts, infographics and visual assets in line with brand guidelines

## Who We Are Looking For

The ideal candidate will have:

### **Skills & Competencies**

- Proficiency in video editing software and data visualisation tools such as Adobe Premiere Pro, DaVinci Resolve, or Final Cut Pro
- Familiarity with motion graphics or animated titles (Adobe After Effects or similar)
- Experience with thumbnail design or basic graphic design (Canva, Photoshop, etc.)
- A strong sense of visual storytelling, pacing, and editing rhythm
- High attention to detail and a methodical approach to precision-driven tasks
- Good written and spoken communication skills in English
- Ability to work independently within defined guidelines
- Prior experience handling video content for research organisations, NGOs, or educational institutions

### **What You Will Gain**

- First-hand experience creating multimedia content for creating a policy impact
- A practical understanding of how research is communicated to different stakeholders
- Direct mentorship from experienced researchers and communications professionals at CTIER
- A strong foundation in professional video production standards applicable across media, academia, and public affairs
- A certificate of internship from CTIER upon successful completion
- Financial compensation for the duration of the internship

### **Internship Details**

Duration: 3–6 months (flexible based on candidate availability)

Type: Full-time, Summer

Location: On site at our office in Pune (Kasarwadi)

## How to Apply?

Send your CV, a brief cover letter (no more than one page) explaining your interest in the role and your relevant background to [nishant.dewaney@ctier.org](mailto:nishant.dewaney@ctier.org). Please use the subject line: Video Editing Intern Application – [Your Name].

Applications will be reviewed on a rolling basis.
